

## CMETB Employer Services providing local industry tailored training

CMETB Employer Services work with employers and enterprises to provide support in adapting to the ever-changing labour environment. Our Skills to Advance programmes empower local businesses to develop and upskill workers and equip them with the skills and competencies required to facilitate them in continuous development and achieving success.

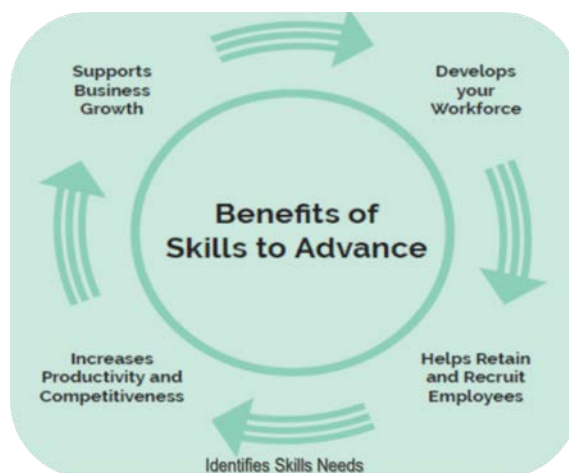

Local Monaghan company Entekra are investing in the growth and development of their employees. Recently, eleven employees successfully completed the City and Guilds ILM Understanding Performance Management course through the CMETB Skills to Advance programme. The course was highly subsidised under the Skills to Advance initiative and was tailored to suit the needs of Entekra and their staff through online delivery. Employees were also offered the opportunity to build on credits to achieve an overall Diploma in Leadership and Management.
